Ministry of the Environment, Japan

Overseas Environmental Cooperation Center, Japan

Ministry of the Environment

Guiding Questions

1. What are key/urgent challenges to operationalize the JCM to be consistent with Article 6 rule?
2. What decarbonization technologies/solutions are expected to be introduced by the JCM at present and in the future? (RE, EE, carbon removal, etc.)
3. How can the JCM attract more investment by utilizing not only the JCM financing programme but other finance schemes, private finance, and carbon markets?
