

# NAMAs and MRV Guidebooks: Lessons from Asia

## — Concept Paper and Call for Contribution —

### What are the NAMAs and MRV Guidebooks?

The NAMAs and MRV Guidebooks are easy-to-read reference documents for all stakeholders involved in nationally appropriate mitigation actions (NAMAs) and the subsequent measurement, reporting and verification (MRV). The Guidebooks will include the information needed to initiate and implement mitigation actions and their MRV, as well as a summary of good practices at the local and national levels based on experiences in Asia and the world.

### Net Global Reduction for Sustainable Development

### What Are Distinctive Characteristics of the Guidebooks?

#### 1) Working with experts in Asia and the world

This Guidebook series attempts to actively involve stakeholders in Asia and the world (e.g. government officials, project implementers and researchers) in its drafting-process.

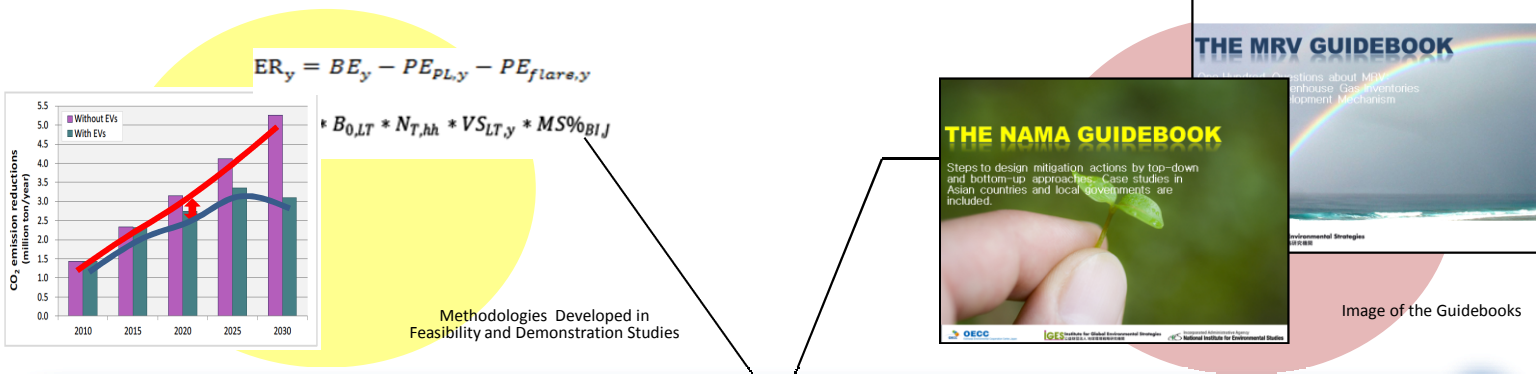

#### 2) Building upon on-the-ground mitigation and MRV experiences

Building upon experiences with the formulation and implementation of NAMAs, MRV methods and national inventories in Asia, the Guidebook series will become useful reference source for a wide range of stakeholders.

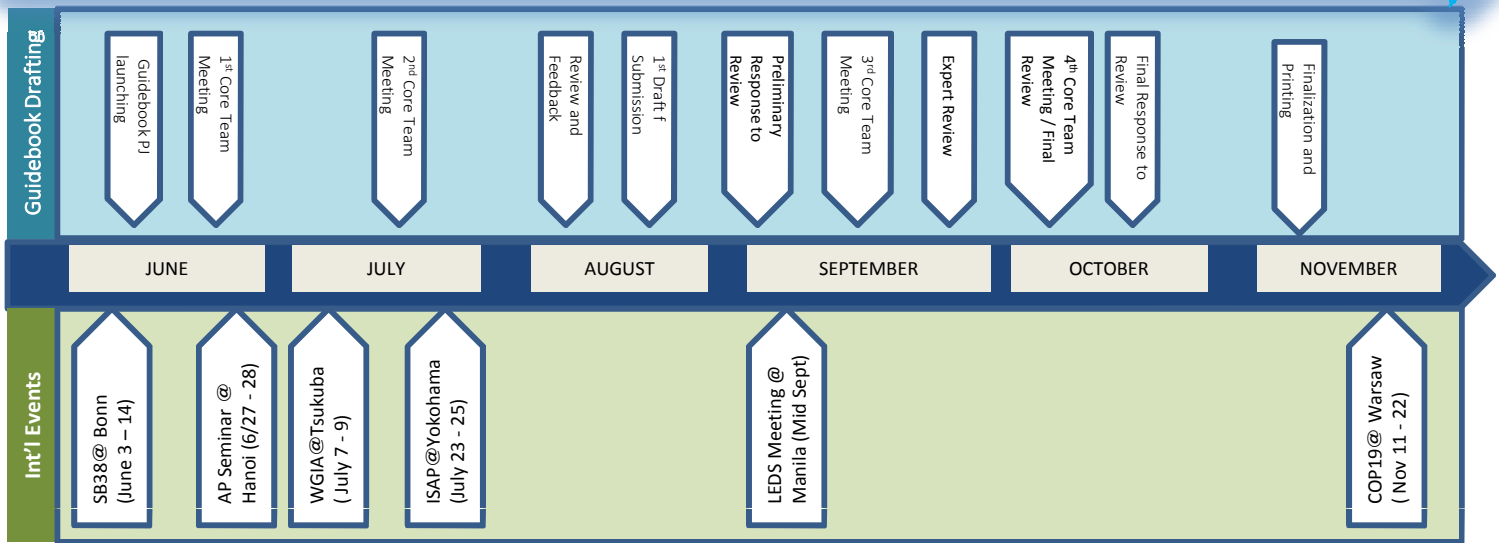

#### 3) Contributing to Net GHG Emissions Reductions

This Guidebook series will assist stakeholders to develop and implement NAMAs and MRV systems, which could contribute to the achievement of sustainable low-carbon development and simultaneously global GHG emissions reductions.

## Going Along with NAMAs and MRV Capacity building, Joint Studies, and Feasibility Studies

## Call for Contribution!

We are looking for any technical contributions to the Guidebook series from those involved in NAMAs and MRV projects at the local or national levels. Your inputs on experiences, implementation results, and good practices will be highly appreciated. While authorship will be recognized, participation will be on voluntary-basis.

### For NAMA Guidebook:

Mr. Jiro Miguel OGAHARA  
Overseas Environmental Cooperation Center, Japan  
Phone: +81-3-5472-0144  
Email: oghara@oecc.or.jp

### For MRV Guidebook:

Ms. Chisa UMEMIYA, Ph.D  
Institute for Global Environmental Strategies  
Phone: +81-46-826-9612  
Email: umemiya@iges.or.jp
