◆1. New Colum -----

[1] JCM Good Practice: Solar power generation in farm to empower female workers @Mongolia

A firm located in suburbs of Ulaanbaatar, Mongolia had unstable revenue sources due to land freezing during winter.

The firm constructed a solar power generation plant under the JCM financing scheme to improve profitability through selling electricity. As a result, the firm can promote the job creation and the training & education for female workers. These activities contribute to realize gender equality in Mongolia which is addressed in Mongolia Sustainable Development Vision.
